Our Recent Report "Voice in Wilderness" : Its really wonderful night that God led us through the bushes and rocky path in dark night about 8 pm with my wife Ruth and 6 associated pastors from my place. The vilage "D Polavaram" is full of Oriya people who don't have Gospel in their deep forest vilage. Pastor Manohar went early with his youth to cook food and prepare the vilage for night meeting. But the Communists extremists don't want us to preach the Gospel and so stopped the power. But we are able to conduct Gospel meeting with about 160 people with the help of car head lights and all of them listen Jesus very interestingly. Thank God that there are 13 youth and elders accepted Jesus Christ as their personal savior. Kindly pray for we will have portable generator for us for outreach ministry. We are also took some clothing to distribute that vilage on the night. The poorest villagers felt very happy about us and they want us to build a prayer shed to worship the Lord every Sunday. We provided food for all the villagers and returned back at night 1 am mid night from the remote forest vilage safely. Thank you all for your loving prayers and support for Out Reach to Gospel Unreached places. If any one of you encouraged to support tribal outreach ministry please visit our website [www.thehouseindia.org](http://www.thehouseindia.org) and support financially. Every single cent will be spent on ministry only. Kindly go through pictures. Thanking you so much. God may bless you all abundantly. Our Recent Report "Voice in Wilderness" : Its really wonderful night that God led us through the bushes and rocky path in dark night about 8 pm with my wife Ruth and 6 associated pastors from my place. The vilage "D Polavaram" is full of Oriya people who don't have Gospel in their deep forest vilage. Pastor Manohar went early with his youth to cook food and prepare the vilage for night meeting. But the Communists extremists don't want us to preach the Gospel and so stopped the power. But we are able to conduct Gospel meeting with about 160 people with the help of car head lights and all of them listen Jesus very interestingly. Thank God that there are 13 youth and elders accepted Jesus Christ as their personal savior. Kindly pray for we will have portable generator for us for outreach ministry. We are also took some clothing to distribute that vilage on the night. The poorest villagers felt very happy about us and they want us to build a prayer shed to worship the Lord every Sunday. We provided food for all the villagers and returned back at night 1 am mid night from the remote forest vilage safely. Thank you all for your loving prayers and support for Out Reach to Gospel Unreached places. If any one of you encouraged to support tribal outreach ministry please visit our website [www.thehouseindia.org](http://www.thehouseindia.org) and support financially. Every single cent will be spent on ministry only. Kindly go through pictures. Thanking you so much. God may bless you all abundantly. The vilage "D Polavaram" is full of Oriya people who don't have Gospel in their deep forest vilage. Pastor Manohar went early with his youth to cook food and prepare the vilage for night meeting. But the Communists extremists don't want us to preach the Gospel and so stopped the power. But we are able to conduct Gospel meeting with about 160 people with the help of car head lights and all of them listen Jesus very interestingly. ## **II) UpComing Projects for Prayers and support.**

1. "The House Champions" (Children Home. \$35 for each child. Already raised for 3 children)
2. "The House Ministers." (Bible School. Still in planning)

Our Recent Report "Voice in Wilderness" : Its really wonderful night that God led us through the bushes and rocky path in dark night about 8 pm with my wife Ruth and 6 associated pastors from my place. The vilage "D Polavaram" is full of Oriya people who don't have Gospel in their deep forest vilage. Pastor Manohar went early with his youth to cook food and prepare the vilage for night meeting. But the Communists extremists don't want us to preach the Gospel and so stopped the power. But we are able to conduct Gospel meeting with about 160 people with the help of car head lights and all of them listen Jesus very interestingly. Thank God that there are 13 youth and elders accepted Jesus Christ as their personal savior. Kindly pray for we will have portable generator for us for outreach ministry. We are also took some clothing to distribute that vilage on the night. The poorest villagers felt very happy about us and they want us to build a prayer shed to worship the Lord every Sunday. We provided food for all the villagers and returned back at night 1 am mid night from the remote forest vilage safely. Thank you all for your loving prayers and support for Out Reach to Gospel Unreached places. If any one of you encouraged to support tribal outreach ministry please visit our website [www.thehouseindia.org](http://www.thehouseindia.org) and support financially. Every single cent will be spent on ministry only. Kindly go through pictures. Thanking you so much. God may bless you all abundantly. Here we are all prayerfully looking forward for your kind reply of blessings.

Our Recent Report "Voice in Wilderness" : Its really wonderful night that God led us through the bushes and rocky path in dark night about 8 pm with my wife Ruth and 6 associated pastors from my place. The vilage "D Polavaram" is full of Oriya people who don't have Gospel in their deep forest vilage. Pastor Manohar went early with his youth to cook food and prepare the vilage for night meeting. But the Communists extremists don't want us to preach the Gospel and so stopped the power. But we are able to conduct Gospel meeting with about 160 people with the help of car head lights and all of them listen Jesus very interestingly. Thank God that there are 13 youth and elders accepted Jesus Christ as their personal savior. Kindly pray for we will have portable generator for us for outreach ministry. We are also took some clothing to distribute that vilage on the night. The poorest villagers felt very happy about us and they want us to build a prayer shed to worship the Lord every Sunday. We provided food for all the villagers and returned back at night 1 am mid night from the remote forest vilage safely. Thank you all for your loving prayers and support for Out Reach to Gospel Unreached places. If any one of you encouraged to support tribal outreach ministry please visit our website [www.thehouseindia.org](http://www.thehouseindia.org) and support financially. Every single cent will be spent on ministry only. Kindly go through pictures. Thanking you so much. God may bless you all abundantly. The vilage "D Polavaram" is full of Oriya people who don't have Gospel in their deep forest vilage. Pastor Manohar went early with his youth to cook food and prepare the vilage for night meeting. But the Communists extremists don't want us to preach the Gospel and so stopped the power. But we are able to conduct Gospel meeting with about 160 people with the help of car head lights and all of them listen Jesus very interestingly. Thank God that there are 13 youth and elders accepted Jesus Christ as their personal savior. Kindly pray for we will have portable generator for us for outreach ministry. We are also took some clothing to distribute that vilage on the night. The poorest villagers felt very happy about us and they want us to build a prayer shed to worship the Lord every Sunday. We provided food for all the villagers and returned back at night 1 am mid night from the remote forest vilage safely. Thank you all for your loving prayers and support for Out Reach to Gospel Unreached places. If any one of you encouraged to support tribal outreach ministry please visit our website [www.thehouseindia.org](http://www.thehouseindia.org) and support financially. OCTOBER, 2018.

My heartfelt loving greetings to you and all the beloved Church families in the precious name of our Lord Jesus Christ.

I hope you all doing well by the grace of God as our Prayers everyday goes to God from all of our network churches. Thank you for praying about our network churches of "The House India", the Gospel project under the NGO Jesus The Way Ministries.

Dear Saints, I have been so led by the Holy Spirit lately to bring forth the reports of our ministry updates of "The House India" to your personal prayers even though I posted every report on facebook. I felt it's my responsibility to share with you personally as you all become dear to us through your support prayerfully and financially.

After my return from US this year, God is leading me to many new places and adding us many new churches and pastors for our network. At present its about 36 churches that has been working under the leadership of "The House Network"

## **I) We have running regular Projects for your prayerful support.**

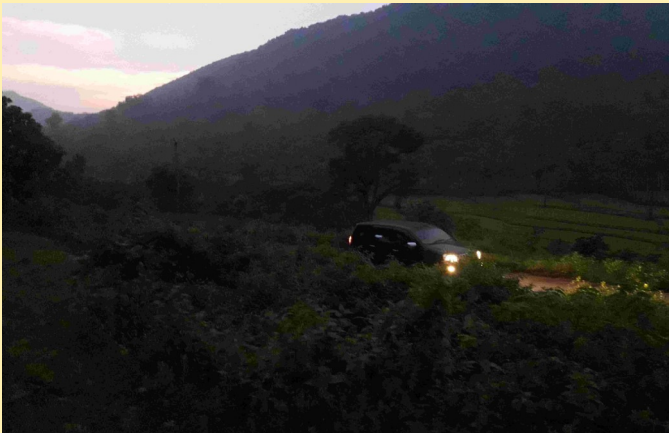

1. "Ministry of Mahanaim" (MOM): PowerPoint Conference for equip Pastors.
2. "Voice in Wilderness" (VIW): Monthly Evangelical Outreach to New Areas of Tribal Hills with Associated Churches and Pastors.
3. "Maries Skill Centers" (MSC) Training Centers in rural and tribal villages for Poverty-stricken women and that promotes self-sustainability. Now two centers completed the training in tw villages named 1. Achuthapuram , 2. Korukonda. and we are going to distribute certificates to two centers next week. We are going to start a new centers in new vilage soon after the road repair has been completed. The vilage about 8 miles from my vilage. I will send you the report next week soon after distribution of certificates.

## **II) UpComing Projects for Prayers and support.**

1. "The House Champions" (Children Home. \$35 for each child. Already raised for 3 children)
2. "The House Ministers." (Bible School. Still in planning)

Our Recent Report "Voice in Wilderness" : Its really wonderful night that God led us through the bushes and rocky path in dark night about 8 pm with my wife Ruth and 6 associated pastors from my place. The vilage "D Polavaram" is full of Oriya people who don't have Gospel in their deep forest vilage. Pastor Manohar went early with his youth to cook food and prepare the vilage for night meeting. But the Communists extremists don't want us to preach the Gospel and so stopped the power. But we are able to conduct Gospel meeting with about 160 people with the help of car head lights and all of them listen Jesus very interestingly. Thank God that there are 13 youth and elders accepted Jesus Christ as their personal savior. Kindly pray for we will have portable generator for us for outreach ministry. We are also took some clothing to distribute that vilage on the night. The poorest villagers felt very happy about us and they want us to build a prayer shed to worship the Lord every Sunday. We provided food for all the villagers and returned back at night 1 am mid night from the remote forest vilage safely. Thank you all for your loving prayers and support for Out Reach to Gospel Unreached places. If any one of you encouraged to support tribal outreach ministry please visit our website [www.thehouseindia.org](http://www.thehouseindia.org) and support financially. Every single cent will be spent on ministry only. Kindly go through pictures. Thanking you so much. God may bless you all abundantly. Here we are all prayerfully looking forward for your kind reply of blessings.

Our Recent Report "Voice in Wilderness" : Its really wonderful night that God led us through the bushes and rocky path in dark night about 8 pm with my wife Ruth and 6 associated pastors from my place. The vilage "D Polavaram" is full of Oriya people who don't have Gospel in their deep forest vilage. Pastor Manohar went early with his youth to cook food and prepare the vilage for night meeting. But the Communists extremists don't want us to preach the Gospel and so stopped the power. But we are able to conduct Gospel meeting with about 160 people with the help of car head lights and all of them listen Jesus very interestingly. Thank God that there are 13 youth and elders accepted Jesus Christ as their personal savior. Kindly pray for we will have portable generator for us for outreach ministry. We are also took some clothing to distribute that vilage on the night. The poorest villagers felt very happy about us and they want us to build a prayer shed to worship the Lord every Sunday. We provided food for all the villagers and returned back at night 1 am mid night from the remote forest vilage safely. Thank you all for your loving prayers and support for Out Reach to Gospel Unreached places. If any one of you encouraged to support tribal outreach ministry please visit our website [www.thehouseindia.org](http://www.thehouseindia.org) and support financially. Every single cent will be spent on ministry only. Kindly go through pictures. Thanking you so much. God may bless you all abundantly. 2. "The House Ministers." (Bible School. Still in planning)

Our Recent Report "Voice in Wilderness" : Its really wonderful night that God led us through the bushes and rocky path in dark night about 8 pm with my wife Ruth and 6 associated pastors from my place. The vilage "D Polavaram" is full of Oriya people who don't have Gospel in their deep forest vilage. Pastor Manohar went early with his youth to cook food and prepare the vilage for night meeting. But the Communists extremists don't want us to preach the Gospel and so stopped the power. But we are able to conduct Gospel meeting with about 160 people with the help of car head lights and all of them listen Jesus very interestingly. Thank God that there are 13 youth and elders accepted Jesus Christ as their personal savior. Kindly pray for we will have portable generator for us for outreach ministry. We are also took some clothing to distribute that vilage on the night. The poorest villagers felt very happy about us and they want us to build a prayer shed to worship the Lord every Sunday. We provided food for all the villagers and returned back at night 1 am mid night from the remote forest vilage safely. Thank you all for your loving prayers and support for Out Reach to Gospel Unreached places. If any one of you encouraged to support tribal outreach ministry please visit our website [www.thehouseindia.org](http://www.thehouseindia.org) and support financially. Every single cent will be spent on ministry only. Kindly go through pictures. Thanking you so much. God may bless you all abundantly. OCTOBER, 2018.

My heartfelt loving greetings to you and all the beloved Church families in the precious name of our Lord Jesus Christ.

I hope you all doing well by the grace of God as our Prayers everyday goes to God from all of our network churches. Thank you for praying about our network churches of "The House India", the Gospel project under the NGO Jesus The Way Ministries.

Dear Saints, I have been so led by the Holy Spirit lately to bring forth the reports of our ministry updates of "The House India" to your personal prayers even though I posted every report on facebook. I felt it's my responsibility to share with you personally as you all become dear to us through your support prayerfully and financially.

After my return from US this year, God is leading me to many new places and adding us many new churches and pastors for our network. At present its about 36 churches that has been working under the leadership of "The House Network"

## **I) We have running regular Projects for your prayerful support.**

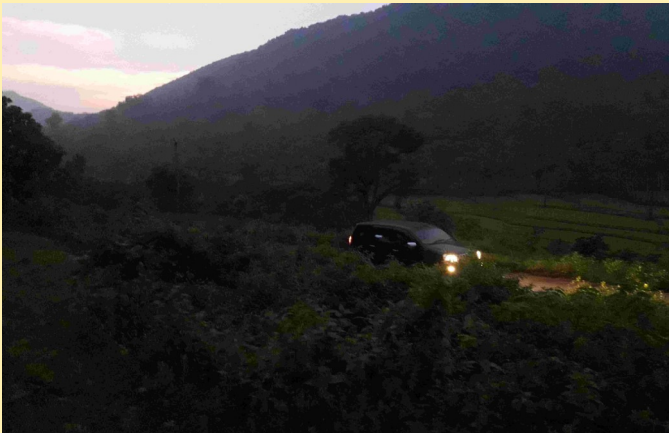

1. "Ministry of Mahanaim" (MOM): PowerPoint Conference for equip Pastors.
2. "Voice in Wilderness" (VIW): Monthly Evangelical Outreach to New Areas of Tribal Hills with Associated Churches and Pastors.
3. "Maries Skill Centers" (MSC) Training Centers in rural and tribal villages for Poverty-stricken women and that promotes self-sustainability. Now two centers completed the training in tw villages named 1. Achuthapuram , 2. Korukonda. and we are going to distribute certificates to two centers next week. We are going to start a new centers in new vilage soon after the road repair has been completed. The village about 8 miles from my village. I will send you the report next week soon after distribution of certificates.

## **II) UpComing Projects for Prayers and support.**

1. "The House Champions" (Children Home. \$35 for each child. Already raised for 3 children)
2. "The House Ministers." (Bible School. Still in planning)

Our Recent Report "Voice in Wilderness" : Its really wonderful night that God led us through the bushes and rocky path in dark night about 8 pm with my wife Ruth and 6 associated pastors from my place. The village "D Polavaram" is full of Oriya people who don't have Gospel in their deep forest village. Pastor Manohar went early with his youth to cook food and prepare the village for night meeting. But the Communists extremists don't want us to preach the Gospel and so stopped the power. But we are able to conduct Gospel meeting with about 160 people with the help of car head lights and all of them listen Jesus very interestingly. Thank God that there are 13 youth and elders accepted Jesus Christ as their personal savior. Kindly pray for we will have portable generator for us for outreach ministry. We are also took some clothing to distribute that village on the night. The poorest villagers felt very happy about us and they want us to build a prayer shed to worship the Lord every Sunday. We provided food for all the villagers and returned back at night 1 am mid night from the remote forest village safely. Thank you all for your loving prayers and support for Out Reach to Gospel Unreached places. If any one of you encouraged to support tribal outreach ministry please visit our website [www.thehouseindia.org](http://www.thehouseindia.org) and support financially. Every single cent will be spent on ministry only. Kindly go through pictures. Thanking you so much. God may bless you all abundantly. Our Recent Report "Voice in Wilderness" : Its really wonderful night that God led us through the bushes and rocky path in dark night about 8 pm with my wife Ruth and 6 associated pastors from my place. The vilage "D Polavaram" is full of Oriya people who don't have Gospel in their deep forest vilage. Pastor Manohar went early with his youth to cook food and prepare the vilage for night meeting. But the Communists extremists don't want us to preach the Gospel and so stopped the power. But we are able to conduct Gospel meeting with about 160 people with the help of car head lights and all of them listen Jesus very interestingly. Thank God that there are 13 youth and elders accepted Jesus Christ as their personal savior. Kindly pray for we will have portable generator for us for outreach ministry. We are also took some clothing to distribute that vilage on the night. The poorest villagers felt very happy about us and they want us to build a prayer shed to worship the Lord every Sunday. We provided food for all the villagers and returned back at night 1 am mid night from the remote forest vilage safely. Thank you all for your loving prayers and support for Out Reach to Gospel Unreached places. If any one of you encouraged to support tribal outreach ministry please visit our website [www.thehouseindia.org](http://www.thehouseindia.org) and support financially. 2. "The House Ministers." (Bible School. Still in planning)

Our Recent Report "Voice in Wilderness" : Its really wonderful night that God led us through the bushes and rocky path in dark night about 8 pm with my wife Ruth and 6 associated pastors from my place. The vilage "D Polavaram" is full of Oriya people who don't have Gospel in their deep forest vilage. Pastor Manohar went early with his youth to cook food and prepare the vilage for night meeting. But the Communists extremists don't want us to preach the Gospel and so stopped the power. But we are able to conduct Gospel meeting with about 160 people with the help of car head lights and all of them listen Jesus very interestingly. Thank God that there are 13 youth and elders accepted Jesus Christ as their personal savior. Kindly pray for we will have portable generator for us for outreach ministry. We are also took some clothing to distribute that vilage on the night. The poorest villagers felt very happy about us and they want us to build a prayer shed to worship the Lord every Sunday. We provided food for all the villagers and returned back at night 1 am mid night from the remote forest vilage safely. Thank you all for your loving prayers and support for Out Reach to Gospel Unreached places. If any one of you encouraged to support tribal outreach ministry please visit our website [www.thehouseindia.org](http://www.thehouseindia.org) and support financially. Every single cent will be spent on ministry only. Kindly go through pictures. Thanking you so much. God may bless you all abundantly.
